Applicant's election without traverse of the species of Fig('s). 1-4 is acknowledged. Claim(s) 4-8 are withdrawn from further consideration by the examiner, 37 C.F.R. § 1.142(b), as being drawn to non-elected species, not all claims depending upon or otherwise including the limitations of an allowed generic claim.

Applicant is reminded that if the amendment of any claims results in a change of the species they read upon, that is required to be indicated. In addition, if any new claims are added, it is required that the applicant indicate which of them read on the elected species. Failure to do so will result in a holding of nonresponsiveness.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. § 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claim(s) 1-3 are rejected under 35 U.S.C. § 102(e), as being anticipated by Ohya or Japan '035 ("JP").

Ohya or JP disclose all of the claimed elements including, for example, Ohya at 24 and 26 or JP at 7, 8.

Claim(s) 9 is rejected under 35 U.S.C. § 102(e), as being anticipated by Japan '035 ("JP") as above and with rollers.
